STORM UPDATE #1

MINOOKA – At approximately 3:11 p.m. on Tuesday (9/7/2021) the Village of Minooka and areas around Minooka Fire Protection District were hit by a severe thunderstorm. Damage is reported throughout the area, including damage to roofs and siding. Multiple trees and power lines were reported down and there are multiple road closures throughout the area. Multiple intersection are without power along with several sewage lift stations and water plants. ComEd and Minooka Public Works is working to restore power and services.

The Minooka High School Central Campus was damaged due to high winds; however, no reports of students or staff injuries. The public is urged to stay away from downed trees and power lines. Minooka Police urges everyone to avoid damage areas and refrain from sightseeing. Minooka Public Works has begun tree and debris clean up and will continue for several days. Continue to monitor local and social media for additional information related to debris removal.
